

Santa Fe

Santa Fe
1,148 sq. ft. living space
3 bedroom, 2 bath
2 car garage
8 ft. ceilings
32 sq. ft. covered porch

Designed for a narrow lot, the Santa Fe makes efficient use of limited space. Though less than 1,200 square feet, this plan has plenty of storage space, including a pantry in the kitchen. The three bedrooms are comfortably located close to the living room with bedroom one having access to a private bath.
