

**Silverton**  
 2,755 sq. ft. living space  
 5 bedroom, 2 1/2 bath  
 3 car garage  
 10 ft. ceilings  
 30 sq. ft. covered porch

The Silverton is one of our more open and flexible floor plans and enjoys adjoining living, family, and dining areas. This plan features ten-foot high ceilings throughout. If a more formal living room is desired, it could easily be fully enclosed. The sizable laundry room is perfect for sewing and hobbies, too. If needed, the separate one-car garage and bedroom three could become a self-contained in-law unit or spacious home office suite.
